

О P I N I O N

by Prof. PhD Valentin Kostov Stoyanov, M.D.

According: competition for academic position “professor” under the scientific field “Organization and management of non-material production (health management)”, announced for the purpose of the department “Organization and management of public health care”, FPHHC, University “Prof. Dr. Assen Zlatarov”, Burgas, issued by the Government Newspaper in number 93 from 26 November 2019.

In the present competition participates only one candidate – assoc. prof. engineer - economist Stoyanka Petkova Petkova-Georgieva - the head of the department “Organization and management of public health care” from the Faculty of Public Health and Health Care (FPHHC), University “Prof. Dr. Assen Zlatarov”, Burgas. In accordance with the regulatory issues I have received all the necessary documents and materials for the present opinion statement.

Short curriculum vitae data

The candidate graduates in 1999 MBA (industrial management) as engineer-economist at University “Prof. Dr. Assen Zlatarov”, Burgas, department “Industrial technologies and management”, Faculty of Social sciences. One year later she graduates at the same University as engineer-chemist, master of technology of petroleum. In 2001 she is hired as a project consultant by Lukoil Neftochim Burgas, Ltd. In 2000 she wins a competition and is hired as an assistant at University “Prof. Dr. Assen Zlatarov”, Burgas and after that sequentially is elected for senior, and chief professor assistant. In 2010 she wins a competition and is hired as associate professor in the scientific field 3.7. Business administration and management, cipher 05.02.21 “Organization and management of the production (by industrial areas)”. Presently she is a university lecturer from specialties “Health management”, “Nurse” – bachelor degrees, “Industrial management”, “Business administration”, “Tourism”, “Marketing”, etc.

Quantity and quality indicator estimation

Assoc. prof. PhD engineer-economist Stoyanka Petkova Petkova – Georgieva has entered for the present competition all the necessary documents, which are in fully accordance by the regulatory demands for the requirement covering of the academic position “professor” in the Faculty of Public Health and Health Care at University “Prof. Dr. Assen Zlatarov”, Burgas. The entered materials and documents content all the necessary information for making a quantity and quality indicator estimation of her whole academic development. It is available comprehensive evidence material containing detailed lists, references, abstracts and full text copies of the published scientific research work before and after the academic position “associate professor”, certificates, diplomas, citation lists, declarations for originality

and approval for the entered documents – all of them signed by assoc. prof. PhD engineer-economist Stoyanka Petkova Petkova-Georgieva.

Assoc. prof. PhD engineer-economist Stoyanka Petkova Petkova-Georgieva has defended dissertation work on the theme: “Controlling exploring and development in the enterprise activity using as an example the petroleum industry” for the acquisition of the education scientific degree “PhD”. She is an author of 10 monographies, text books or chapters of collective monographies, as in 8 of them is first or only author. All the scientific publications are reviewed and have ISBN.

The entered scientific publications by assoc. prof. PhD engineer-economist Stoyanka Petkova Petkova-Georgieva for the competition are in the area and meaning of the present competition – “Public health care and sport”, professional area 7.4. “Public health”, scientific specialty “Organization and management of nonmaterial production (health management)”.

For the competition participation is presented one habilitation scientific work – a monography by indicator B.1 and one published monography, which is not the main one by the indicator Г.5.1. All the research publications are 37, 19 of which are by the indicator group Г7 (publications in Scopus and WOS) Представените научни публикации са общо 37, от които 19 броя по група от показател Г7 and 18 of them are by the indicator group Г8. 16 of the publications from indicator group Г7 and 4 of the publications (indicator group Г8) are with second co-author. From the indicator group Г9 are presented four books in which are published chapters from collective monographies. Also, for the competition are entered four textbooks.

Summary of the presented materials for the competition reviewing

For the competition participation are presented 43 publication in total (25 of which are published abroad) as followed:

№	Publication type	Self-author	With co-author	Total
		Total number	Total number	Total number
1.	Monography	1	-	1
2.	Collective monography	-	1	1
3.	Short research books	-	-	-
4.	Publications	8	17	25
5.	Scientific papers	7	5	12
6.	Text books	2	2	4
7.	Publication total number	18	25	43

The presented for the competition reviewing materials as total number and content are enough and even more than the necessary and required quality indicators for the academic degree and position “professor” at University “Prof. Dr. Assen Zlatarov”, Burgas. All of them are not the same as the candidate had entered in the past competitions for “PhD” and “associate professor”.

The candidate’s scientific research publications have 79 citations.

Under the candidate science consulting and guidance has graduated 4 “PhD” scientist and 19 master gradulators.

The candidate has been participated as a project manager and as a member of scientist group in total 17 science-research projects, 11 of which have been financed by independent from the University business organizations.

Courses and specializations

Assoc. prof. PhD engineer-economist Stoyanka Petkova Petkova-Georgieva has participated in different specializations in Bulgaria and abroad, most significant of which are: “Training Workshop in Russian on Best Practices for Developing the Responsible Care® Programme for the Chemical Industry”; “Study of one area of plant process optimization of a refrigeration system which provides cooling for the process” и “Nanotoxicology and regulatory issues of emerging technologies”; Policy Context, Program Development, Project Management, Monitoring and Evaluation, etc.
